August 2023 – November 2023

- Assisted and contributed to the production of the front-end side of a Warehouse Management System using VueJS.
- Started and developed the landing page of the company's administration management system using ReactJS.
- Studied back-end programming such as NodeJS, Java, and Spring.
- Migrated an existing database to a new database for the In-house Project.

#### ECE Contact Centers

Ayala Ave, Makati

Customer Service Representative

December 2023 – June 2024

- Handle customer accounts related to banking and financial applications.
- Identify customer concerns and provide necessary troubleshooting steps based on regulated responses.

### COURSE EXPERIENCE

---

#### Java, and Spring

Udemy

- Studied and created an API and utilized the back-end potential of Java and its framework, Spring.

#### Introduction to Computer Networks

Cisco

- Installed Packet Tracer, studied and completed activities about Computer Networks under Cisco.

### PROJECT EXPERIENCE

---

#### Unity

CMPE 40032: Computer Engineering Technology 3

- Worked on game development with two group members using tools including GitHub, Aseprite, Visual Studio, Code, and Unity.
- Created Sprites and Assets using Aseprite.

#### Web Development

KyusiTrip (Capstone)

- Created a web-based navigation application for public transportation similar to Moovit, Sakay.ph, and Google Maps.
- Utilized MERN stack for the development and used MongoDB for the database.

### *CMPE 30283: Emerging Technologies in Computer Engineering*

- Created a simple e-voting system using ReactJS and AES algorithms for the encryption and decryption of data.
- Used Google Firebase for the system's database.

### *YC Directory – startup-directory-six.vercel.app*

- A responsive website for posting or pitching your own customized startup ideas.
- Utilized NextJS, and Tailwind CSS for the front-end framework.
- Integrated NextAuth or OAuth for the login functionality and Sanity as BaaS.

### *Cy Dryve – cy-dryve.vercel.app*

- A Google Drive clone with complete functionality, including sharing, built with NextJS and Tailwind CSS.
- Utilized Appwrite for sign-in and sign-up functions via OTP and as BaaS.

### *LHK Solutions Inc. Administration Management System*

- Initialized and developed the front-end side of the company's administration management system.
- Utilized ReactJS for the website's front-end framework.
- Integrated the project inside a Springboot project for its back-end side.

## **Mobile Application Development**

### *KyusiTrip (Capstone)*

- Created a mobile navigation application for public transportation similar to Moovit, Sakay.ph, and Google Maps.
- Utilized MERN stack for the development and used MongoDB for the database.

### *Seorin Warehouse Management System*

- Developed and filled out the client's front-end request for the warehouse management system.
- Utilized VueJS for the front-end framework and Axios for the RESTful API request.

## **TECH STACKS**

---

### *Programming Languages*

- |               |          |
|---------------|----------|
| • HTML5; CSS3 | • PHP    |
| • JavaScript  | • Java   |
| • TypeScript  | • Python |

### *Frameworks & Libraries*

- |             |                |
|-------------|----------------|
| • ReactJS   | • NextJS       |
| • VueJS     | • Tailwind CSS |
| • NodeJS    | • Bootstrap    |
| • ExpressJS | • Spring       |

### *Databases*

- |              |            |
|--------------|------------|
| • MySQL      | • MongoDB  |
| • PostgreSQL | • Firebase |

## **SKILLS & INTERESTS**

---

**Skills:** Graphic Design (Canva, Lightroom, Figma); Computer Skills; Leadership and Communication Skills; Sound Engineering (Audacity and BandLab); Project Management (Git, GitHub, Sourcetree); Video Editing, Microsoft Office Suite (Word, Powerpoint, Excel, Teams) – Intermediate

**Interests:** Audio Mix and Master; Video Editing; Web Development; Mobile Application Development; Instruments; Video or Computer Games.
