cvillasenior@gmail.com • +63 961 581 5881

EDUCATION

University of the East – Caloocan   **Sangandaan, Caloocan**
Science, Technology, Engineering and Mathematics (*STEM*)   *2018 – 2020*
- With Honors

Polytechnic University of the Philippines – Manila   **Sta. Mesa, Manila**
Bachelor of Science in Computer Engineering (*BSCpE*)   *2020 – 2024*
- Consistent President's Lister
- Cumulative GWA – 1.52

ACCESS Vice President for Student Affairs Subordinate   *2022 – 2023*
- Engineering Month eSports Coordinator and Game Master
- Computer Engineering Fair/Week eSports Coordinator

WORK EXPERIENCE

Wedding Supplier Association of the Philippines   **Bacoor, Cavite**
Web Development Head/Web Developer   *August 2022 – October 2022*
- Accompanied and piloted the Web Development Team in creating the company's website, from front-end to back-end.
- In charge of ensuring websites look good and function properly.

Technical Support
- Assisted the technical support head in managing events and webinars hosted by the company.

LHK Solutions Inc.   **Ortigas Ave, San Juan**
Java and Front-end Developer Intern   *August 2023 – November 2023*
- Assisted and contributed to the production of the front-end side of a Warehouse Management System using VueJS.
- Started and developed the landing page of the company's administration management system using ReactJS.
- Studied back-end programming such as NodeJS, Java, and Spring.
- Migrated an existing database to a new database for the In-house Project.

ECE Contact Centers   **Ayala Ave, Makati**
Customer Service Representative   *December 2023 – June 2024*
- Handle customer accounts related to banking and financial applications.
- Identify customer concerns and provide necessary troubleshooting steps based on regulated responses.

COURSE EXPERIENCE

C# and Unity
Epitome
- Installed Visual Studio Code and Unity to program functions, utilizing core programming tools.

HTML, CSS, JavaSCript, jQuery, and PHP
W3school
- Strengthened skills in HTML, CSS, JavaScript, jQuery, PHP, and Web Development.

Java, and Spring
Udemy
- Studied and created an API and utilized the back-end potential of Java and its framework, Spring.

PROJECT EXPERIENCE

Unity
CMPE 40032: Computer Engineering Technology 3
- Worked on game development with two group members using tools including GitHub, Aseprite, Visual Studio, Code, and Unity.
- Created Sprites and Assets using Aseprite.

Web Administrator

philippinevirtualexpo.com
- Utilized WordPress to maintain, update, and optimize the website.

Web Development

CMPE 40042: Computer Engineering Technology 4
- Created a simple website for a coffee shop using essential functions of HTML and CSS.
- Utilized HTML, CSS, and JavaScript, to make a website with a log-in function.

CMPE 30252: Computer Engineering Practice and Design 2; CMPE 30231: Computer Engineering Practice and Design 1
- Created a web-based navigation application for public transportation similar to Moovit, Sakay.ph, and Google Maps.
- Utilized MERN stack for the development and used MongoDB for the database.

CMPE 30283: Emerging Technologies in Computer Engineering
- Created a simple e-voting system using ReactJS and AES algorithms for the encryption and decryption of data.
- Used Google Firebase for the system's database.

yusongroupofcompanies.com
- Polished the landing page for Yuson Group of Companies and created the backdoor for its brand's inventory system.
- Utilized PHP and MySQL for its log-in function and back-end programming.
- Used phpMyAdmin for its database.

tjyuson.com
- Polished TJ Yuson's E-portfolio and created a backdoor for its contact form.
- Utilized JavaScript, PHP, and MySQL for its log-in, anti-bot, and slow mode function and back-end programming.
- Used phpMyAdmin for its database and storing information coming from the client side.

LHK Solutions Inc. Administration Management System
- Initialized and developed the front-end side of the company's administration management system.
- Utilized ReactJS for the website's front-end framework.
- Integrated the project inside a Springboot project for its back-end side.

Cordova Apache

CMPE 40042: Computer Engineering Technology 4
- Collaborated with 3 group members to create a mobile phone application with a log-in function with its information from a database, MySQL, using HTML, CSS, and PHP.

Mobile Application Development

CMPE 30252: Computer Engineering Practice and Design 2; CMPE 30231: Computer Engineering Practice and Design 1
- Created a mobile navigation application for public transportation similar to Moovit, Sakay.ph, and Google Maps.
- Utilized MERN stack for the development and used MongoDB for the database.

Seorin Warehouse Management System
- Developed and filled out the client's front-end request for the warehouse management system.
- Utilized VueJS for the front-end framework and Axios for the RESTful API request.

SKILLS & INTERESTS

Skills: Graphic Design (Canva, Lightroom, Figma); Computer Skills; Leadership and Communication Skills; Sound Engineering (Audacity and BandLab); Programming Language (HTML, CSS, JavaScript, PHP, WordPress, Java, C#, C++); Framework & Library (jQuery, VueJS, ReactJS, Bootstrap, Tailwind, Spring, NodeJS); Database (MySQL, Firebase); Project Management (Git, GitHub, Sourcetree); Video Editing, Microsoft Office Suite (Powerpoint, Excel, Teams) – Intermediate

Interests: Audio Mix and Master; Video Editing; Web Development; Mobile Application Development; Instruments; Video or Computer Games.
